- Easy to draw and organize Formations, Plays and Defenses
- Quickly match plays against defenses
- Create Gameplans and save in user definable folders
- Add custom text boxes to drawings
- Multiple size and shapes of symbols available
- Create new formations and plays quickly with stored sets, blocking schemes, actions and pass routes.
- Easily export plays or gameplans out to pictures for use in several other programs including Webb Video Systems and Webb Reports.
- Extensive Help file and Video tutorials integrated into the application to teach you how to do most anything.
- Use a special view to watch animations of your play drawings.

Create Instant Play Cards: Print your plays vs different defenses with or without the football field. Print them in black and white to save money on color printing.

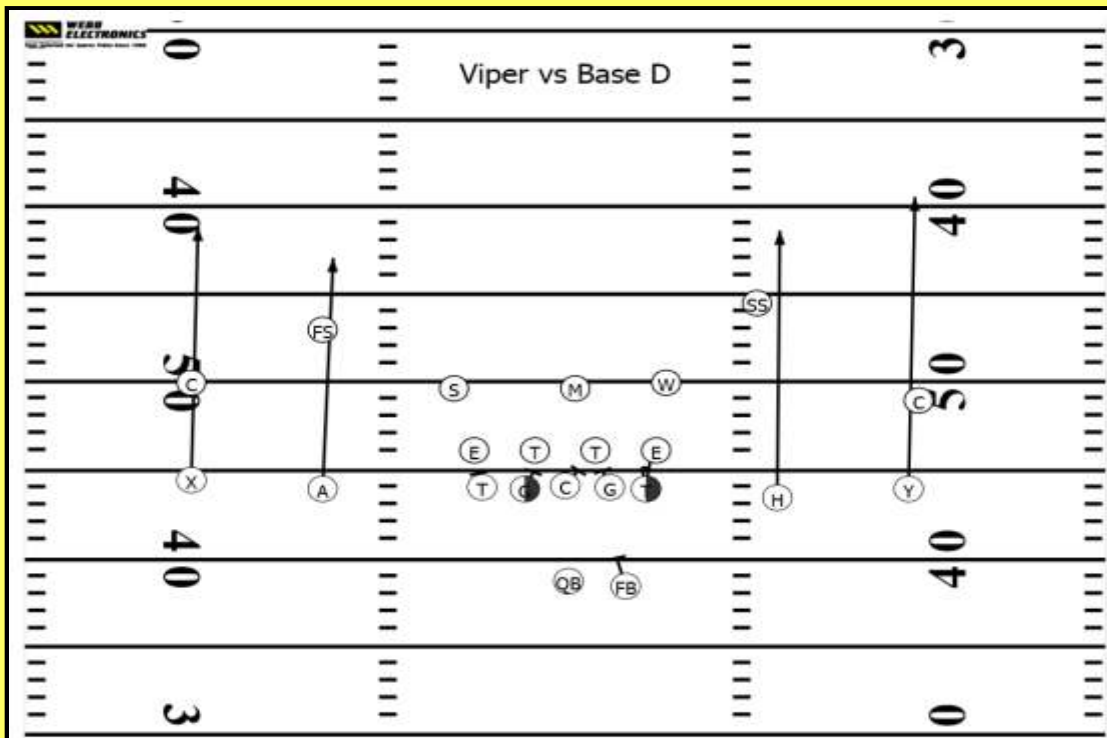

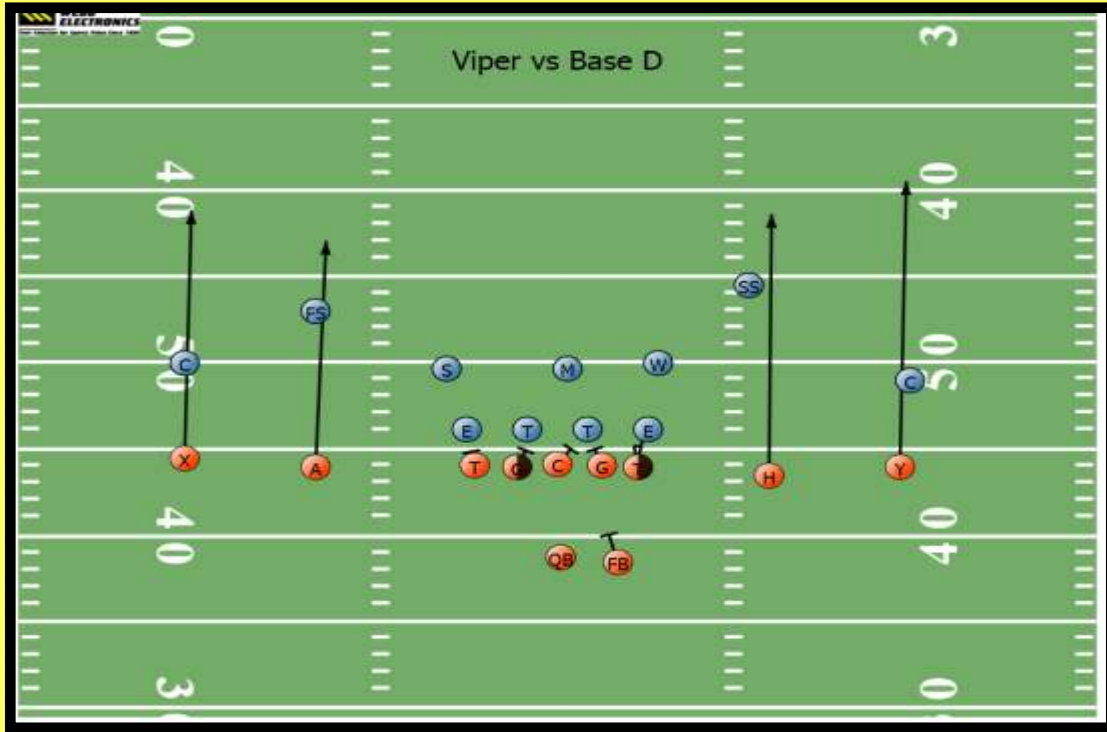

Organize your different Gameplans in your own folders. Keep your Plays separated by week or opponent.
